# THE STORY OF SOLANIE

## EVERYTHING STARTED IN THE FAMILY CHEMIST'S SHOP...

*The story of Solanie brand started in 1936 when Mihaly Pito pharmacist chose to beautify the body and nurture the soul as his vocation besides healing. The most beautiful drugstore of Baja was waiting with open doors not only for those who wish to heal but also those who would like to become more beautiful.*

## THE FIRST PRIVATE BEAUTY SALON IN HUNGARY

*The youngest member of the family, Eva Pito, opened her first private beauty salon in the heart of Budapest, in front of the Basilica in 1972. Initially she rejuvenated the lovers of beauty by using mixed creams from preserved recipes of her pharmacist father's legacy, and used the practices of her knowledge about active substance.*

## THE FIRST 15 SOLANIE RECIPES

*The first 15 recipes which were based on pharmacy expertise with decades of history got increasingly popular, and the rumour about it spread fast in professional circles, due to its spectacular skin beautifying effects. To fulfil the increased professional demand with the unique creation of creams became more and more difficult, so the operational manufacturing of the creams began.*

## THE CONTINUATION OF THE FAMILY HERITAGE AND INTENSIVE DEVELOPMENT OF THE BRAND

*In 2012 Éva Pitó's stepson, Tamás Szóráth and his cosmetic company, Alveola took over the development of Solanie brand. The company's philosophy is based on renewal and dynamism, so the brand has been able to take the first steps on the international market. Now Solanie is present in more than 20 countries, from Slovakia to Malaysia.*

## 80TH ANNIVERSARY

*On the occasion of the 80th anniversary of the pharmacy family business, Solanie launched the „Velvet cream” with the name of Eva Pito, which soon became the favourite among users.*

## NATURAL INGREDIENTS IN THE SERVICE OF BEAUTY

*We believe and profess that natural beauty can only be achieved by using the right number of natural ingredients. In our recipes we prefer plant-based ingredients due to their centuries-old beautifying properties, and combine them with the award-winning innovative ingredients of modern cosmetics. Aloe vera, or ginkgo can be found in our products as well as the most modern plant stem cells or peptides. Most of our skincare products are vegan, and people who prefer beauty products with natural ingredients can also find something for themselves.*

# SOLANIE, THE BEAUTY EXPERT'S CHOICE

## FORMULATIONS THAT ARE TAILORED TO YOUR SKIN'S NEEDS AND TO PROTECT YOUR SKIN'S HEALTH

*The ingredients we use are not tested on animals, and they are not genetically modified, and most of our products are free of SLS (Sodium Laureth Sulfate), paraben, mineral oil and silicone oil. We believe it is important for products made to allergy prone skin to avoid added fragrance, allergens and colourants.*

## PROFESSIONAL AWARDS, THAT ALL OF US CAN BE PROUD OF

*Together with our customers, we dream and make the history of the beauty industry. As a Hungarian manufacturer we are proud to enhance the reputation of the Hungarian beauty market. Due to our high-quality products, we have won the recognition and loyalty of our customers, and also the professional beauty industry. Our Grape -Hyaluron and Argan plant stem cell lines have won the Hungarian Quality Product Awards. The Argan line is also the proud holder of the Product of the Year Award 2016. Our most recent recognition is the Super Store 2019 Award for our customer-oriented service.*

## WE BEAUTIFY WHILE PROTECTING NATURE

*The purest beauty essences can only be created in the purest environment, with the purest ingredients. Our high level of product safety ensures that the raw materials we receive are used in their natural form, with the optimum use of energy. Our intelligently designed, computer-controlled manufacturing processes minimize our ecological footprint, protecting nature and future generations.*

## PRODUCT SAFETY AND MANUFACTURING PROCESS

*During the production process, we particularly pay attention to serve the needs of the users from the idea to the birth of the product. Efficiency is important, but it is also a principle to make the skincare experience easier and more enjoyable. Our research and development activities are carried out by highly qualified professionals and a broad scientific team in a modern laboratory. Continuous innovation, maximum efficiency and product safety are top priorities for us. We comply with GMP regulations, so our manufacturing process is subject to the strictest international ISO22716 quality assurance system.*

# AROMA SENSE

SKIN BEAUTIFYING WITH THE POWER OF ESSENTIAL OILS  
DISCOVER THE 100% NATURAL ESSENTIAL OILS

Essential oils are natural, scented, and volatile compounds that are produced by certain aromatic plants to help them grow, reproduce, and fight insects, bacteria, and viruses. These are, after all, the natural „medicines” of plants which provide their protective, reproductive, and regenerative properties. At Solanie, we believe that essential oils are not just cosmetic ingredients, but also incredible gifts from nature that are beneficial to both the skin and the mind, with their anti-inflammatory, antibacterial, antioxidant, and stress-relieving therapeutic properties.

Choose from 13 different mono essential oils based on your desire or use the different essential oil blends in an aroma or electric diffuser. With Solanie Aroma Essential Oil blends you can create facial treatments to improve skin quality in case of problematic or dry, mature skin.

## AROMA SENSE AUSTRALIAN TEA TREE ESSENTIAL OIL

# MESOPEPTIDE

REJUVENATING MESOTHERAPY TREATMENT WITHOUT NEEDLES

*Solanie Mesopeptide supercomplexes are based on 3 synergistic peptides. Use them along with the special enzymatic exfoliant and recovering mask to boost their effectiveness, and you will achieve spectacular results in a short time. All this can be performed effortlessly and elegantly due to No Needle Rejuvenation technology that aligns with the latest expectations of 21st century. Enjoy the effectiveness of mesotherapy without needling.*

*None of the physiological processes that take place in our bodies can happen without the essential proteins. These polypeptides have a diverse structure due to their different functions. Their complex biological structures are at the center of cell renewal and regeneration processes. Peptides not only affect cell-to-cell communication, but they also play a primary role in the absorption of other active substances. Their deficiency at the cellular level blocks the regeneration process which is vital for aging skin, or the normal functioning of younger healthy skin.*

*Solanie Mesopeptide products combine the diverse effects of peptides that are vital for the skin with the advantage of mesotherapy treatment. All can be achieved in 3 simple steps: enhance skin permeability, take care of skin and rejuvenate it according to different skin types, and activate for a complete mesotherapy experience. Peptides synthesised from plants open up the opportunity to support the skin's structuring and regenerating processes at the cellular level during cosmetic treatments. Peptides used in our super complexes: NEODERMYL<sup>®</sup>, MATRIXYL 3000<sup>®</sup>, TELANGYN<sup>®</sup>, RUBIXYL<sup>®</sup>, ARGIRELINE<sup>®</sup>, LEUPHASYL<sup>®</sup>.*

# ARGAN STEM CELLS

WRINKLE SMOOTHING, SKIN REJUVENATING AND FIRMING

*Argan Plant Stem Cells products bring new possibilities to cosmetic treatments.*

*As the skin ages, the production of skin cells and the quantity and quality of collagen and elastic fibres are constantly decreasing. The PhytoCellTec™ Argan stem cells embedded in the liposome have a direct effect to the production of skin cells: they stimulate the regeneration of the connective tissue, enhance the skin's softness and density (+12,7%) and reduce wrinkle depth (-26%). It opens the door to a complete skin regeneration program for the over-used, deplete, or even sensitive skin.*

## ARGAN PLANT STEM CELLS PROTECT DAY CREAM

**SIZES:** 100 ml • SO21601, 50 ml • SO11601

An outstanding moisturizing cream able to protect and vitalize dermal stem cells due to its Argan plant stem cells. It enhances the skin density, reduces wrinkles, smoothens the skin's surface, and helps sustain a normal cell regeneration cycle. Jojoba oil guarantees the protection of the hydrolipidic film and it is similar to natural skin oils. The illipe butter regenerates the skin, restores the skin flexibility, and reduces its puffiness, a typical trait of weary skins. UV filters protect against cells damage and skin aging.

**Main ingredients:** Argan plant stem cells extract, illipe butter, Jojoba oil, aloe juice, Pentavitin, PCA, lactate, glycine, urea, fructose, inositol, Vitamin B3 (niacinamide), panthenol, physical sun-screen (titanium-dioxide), allantoin

# GOLD

A DROP OF LUXURY WITH PLENTY OF SKIN-ENRICHING QUALITIES

*Ancient Egyptians have already used gold during beauty rituals due to its skin regenerating effect. In this way they not only provided the privilege of noble metals to the ruler but also introduced the particular importance of the gold as a tool to preserve the youth of the skin.*

*Gold appears as a part of exclusive skincare treatments until today and science has also proved its skin-enhancing properties. The noble metal particles act as a stimulant towards the other compounds used in creams as well as towards the skin itself. After application you can:*

- *Improve physiological functions*
- *Enhance the self-regenerating process of the skin*

- *Boost the removal of residues*
- *Promote the neutralisation of free radicals*
- *Improve water retention and therefore increase hydration*
- *Particularly enhance the absorption of collagen and hyaluronic acid*

*Solanie's Gold Line products contain 24K American Mesogold particles with 99,99% purity produced by electrolysis, thereby providing maximal and long-lasting skincare effect.*

*Unfortunately, as every substance, gold gets eventually cleansed from the body, therefore a course of treatment is recommended at home and in the beauty salons in order to maintain the achieved effect that becomes visible even after the first treatment.*

# AHA PEEL

PEELING, REJUVENATING TO ACHIEVE AN EVEN,  
HEALTHY SKIN TONE WITH FRUIT ACIDS

*Regular peeling of the skin's surface is extremely important and can help renew the structure of the skin and its permeability. One of the latest methods for performing this is the use of fruit acids, which can enhance the removal of skin cells during the chemical exfoliation process. The renewing epidermis along with the boosted metabolism and faster protein synthesis completely refresh the skin, make the hyperkeratosis disappear and remove the hyperpigmented skin cells.*

## AHA PEEL SKIN REJUVENATING NIGHT CREAM

# VITA WHITE

SKIN LIGHTENING AND ANTI-AGEING PROGRAM OPTIMIZES  
MELANIN PRODUCTION

## VITA WHITE BRIGHTENING ELIXIR

**SIZES:** 30 ml • SO21901, 15 ml • SO11901

*Vita White products provide the perfect harmony of skin whitening and anti-ageing effects. The intentionally selected ingredients of the products can help not only with the pigment damage caused by UV radiation but also with pigment-producing disorder mostly caused by inflammation after skin injury.*

*The soul of Vita White line is a special skin whitening elixir which affects the different stages of pigment production and therefore blocks the melanogenesis. This helps lighten the skin damage caused by melanin discoloration which can cause problems from a younger to elderly age. Vitamin A, C, E, and B3 have a strong synergetic antioxidant effect, improve cells immunity and protect the cells membrane.*

A light texture serum developed to attain a lighter and smoother skin tone. Its skin lightening content directly affects the melanin formation. It also reduces pigment spots emerging from skin aging caused by the sunshine. Use it twice a day for 4 weeks and dark spots will fade, while the skin tone will become more even. During the regular usage, with appropriate skin care and light protection, the skin will appear healthier.

LIFTING CREAMFLUID

SIZE: 30 ml • SO30702

Q10  
LIFTING SERUM

SIZE: 30 ml • SO30701

Centella extract is an excellent cell regenerator that activates cell metabolic processes. Preregen® protects skin cell membranes against oxidative damage and maintains the elasticity of the skin. Coenzyme Q10 is better utilized in tissues as it has been made water soluble, and it is also a strong free radical binder and an antioxidant agent. Caffeine detoxicates and stimulates circulation. Skin softener and nutritious macadamia and evening primrose seed oils replenish the skin with valuable lipids. It does not contain allergen preservatives.

**Main ingredients:**

**Q10 Lifting Serum:** coenzyme Q10, centella extract, Preregen® (soy protein, Superoxide dismutase), betaine, NMF-complex, collagen, panthenol, allantoin, aloe juice, vitamin E

**Q10 Lifting Creamfluid:** coenzyme Q10, centella extract, Preregen® (soy protein, Superoxide dismutase), macadamia nut oil, collagen, evening primrose seed oil, almond oil, shea butter, caffeine, vitamin E, allantoin

# ALOE-GINKGO

NATURAL INGREDIENTS FOR A PROPERLY NOURISHED, HEALTHY SKIN

Water is essential for proper functioning of our body and skin, and it is a primary defence system as optimal cell operation depends on an adequate fluid environment. Hydrated cells also need nutrients and oxygen, which are transported to their destination by circulation. The unique Aloe-Ginkgo combination used in these products ensures both intensive hydration and increased microcirculation for rapid skin regeneration.

Aloe juice contains over 200 bioactive substances, including polysaccharides, amino acids, enzymes, trace elements, phytosterols, vitamins, growth factors, and salicylic acid. Its mucopolysaccharide and amino acid components help retain moisture on the skin surface, providing a favorable environment for new epithelial cell formation (wound healing). In vitro research has shown that the lignin component makes the cell membrane more permeable to active ingredients with smaller molecular size, allowing them to penetrate deeper into the dermis.

Ginkgo Biloba is one of the oldest plants on Earth. Its antioxidant compounds reduce the formation of tissue-damaging free radicals. Flavonoid and terpene components stimulate the microcirculation on the skin surface and increase the metabolic processes of the cells, thereby increasing the supply of oxygen and nutrients to the cells. To increase the effectiveness of different formulations, depending on the skin type, products contain a range of natural active ingredients, fruit and herbal extracts, which, thanks to their cosmetic properties and synergistic action, allow for a more effective treatment in a shorter time period.

Buffered fruit acids (pH 4.5-4.7) have gentle exfoliating effect. Cinnamon essential oil and nicotinic acid ester enhance the microcirculation on the skin surface, thus warming and flushing the skin. The oxygen uptake of tissues is increased, the pores are opened, therefore the absorption of active ingredients is accelerated. After application, a tingling, prickling, warm sensation is experienced (depending on skin sensitivity), then it quickly subsides. Despite an intense action, no irritation occurs, and redness soon disappears. Use it with care in case of allergy-prone rosacea skin.

**Main ingredients:** glycolic acid, lactic acid, salicylic acid, cinnamon and rosewood essential oils, ethyl nicotinate, vitamin PP, allantoin

## BB CREAM WITH HYALURONIC ACID SPF 15 DARK

**SIZE:** 30 ml • SO10924

Solanie BB Cream ALL IN ONE will be an essential part of your beauty routine: moisturizer and makeup at the same time. The cream works as a foundation and ensures an even skin color, corrects, and creates a glowing skin. It promotes natural coverage, so it provides a suitable alternative for those who do not like full coverage foundations and concealers. Its moisturizing and nourishing ingredients soften the skin and due to its antioxidant (vitamin E) effect protects against free radicals. It provides a matte finish, its ha-

mamelia extract prevents impurities, while pantheol and aloe vera contents promote wound healing. Protects against UV rays. The Solanie BB Cream ALL IN ONE is available in three shades so you can find the right shade for every skin tone.

**Main ingredients:** medium molecular sized hyaluronic acid, vitamin E, aloe vera, ginkgo, allantoin, panthenol, betaine, hamamelis. Chemical sunscreens (SPF 15 equivalent), mineral pigments

# SPECIAL CARE

SPECIAL CARE FOCUSING ON SPECIFIC SKIN PROBLEMS

BLACK  
SOAP

**SIZES:** 250 ml • SO20109, 125 ml • SO10109

It provides a gentle but thorough cleansing before facial treatments or everyday skin cleansing care at home for oily, problematic, congested, itchy-prone, and seborrheic skin types. With an alkaline pH, it is intended to soften tissue and to remove dead skin cells. Ichthyol is beneficial for inflamed, acne-prone, irritated, rosacea skin, and helps normalize the activity of sebaceous gland. The lavender oil works together with the ichthyol to provide synergistic skin soothing and cleansing effects.

**Main ingredients:** ichthyol, lavender oil, Irish moss

BLACK  
TONIC

**SIZES:** 250 ml • SO20111, 125 ml • SO10111

Non-alcoholic hydrating tonic containing antibacterial zinc used for the maintenance and care of oily, unclean, acne prone, itching skin. We highly recommend it after black soap to restore the pH value of the skin and enhance skin hydration. Ichthyol and herbal extracts have a beneficial effect on excessive sebum secretion and restoration of the optimal condition of oily skin. Salicylic acid helps prevent acne by removing the sebum accumulated in the pores.

**Main ingredients:** ichthyol, lavender oil, zinc PCA, allantoin, lactic acid, juniper, thyme, burdock root, gentian root, lemon peel extracts, salicylic acid

## MICELLAR CLEANSER AND MAKE-UP REMOVER

**SIZE:** 150 ml • SO10110

A gentle but highly effective facial cleansing liquid to remove make-up and other impurities from the skin without harsh rubbing and rinsing. Thanks to micelles which act like magnets, all traces of make-up are gently lifted away from the skin and not just smeared around the face. Suitable for sensitive skin as well, it does not cause drying or irritation. Active ingredients help reduce the skin sensitivity and strengthen the its barrier functions.

## MANGO-RICE AHA FACIAL PEELING

**SIZES:** 150 ml • SO20901, 30 ml • SO10901

A combination of skin mechanical and chemical peels that requires more intense exfoliation. The fruit acids from mango and papaya, the glycolic and lactic acids in the peeling loosen the flaky layer of skin and stimulates the formation of new cells. This opens the pathways for active ingredient by weakening the protein bonds in the skin. Its marine-derived, fine-grained diatomaceous earth cleanses the skin pores, removes impurities and unwanted oil from its surface, ensuring a matte finish. A nourishing avocado oil, anti-irritant, moisturising betaine and allantoin, have a skin-protecting, normalising effect.

**Main ingredients:** rice spheres, papaya- and mango fruit extracts, AHA acids (glycolic, lactic), salicylic acids, diatomite, avocado oil, allantoin, betaine

### VELVET CREAM

**SIZES:** 250 ml • SO20909, 50 ml • SO10909

For the daily care of seborrheic skin. Easily absorbed, non-greasy, soothing, and moisturizing cream. With regular use, it provides a moisturised, velvety to touch, matte skin condition. Seboregulating plant extracts (burdock, tarragon, gentiana, thyme, lemon) have a soothing effect on the skin. Plant oils and NMF (lactate) keep skin hydrated. Its sunscreen ingredients help prevent premature ageing of the skin and the formation of harmful free radicals.

**Main ingredients:** burdock root, juniper, gentiana root, thyme, citrus lemon peel extract, sunflower oil, jojoba oil

### HYALURON ACTIVE LIPOSOME GEL

**SIZE:** 30 ml • SO10917

Light, oil-free gel to activate the skin's defense system and absorption capacity and to improve its moisture-retaining ability. It supports natural skin functions and improves the absorption of the active ingredients. The components of hyaluronic acid and honey closed in liposome penetrate the deeper layers of the skin to increase its hydration and water retention capacity. Ceramide supports the supply of moisture to the skin barrier, thereby reducing transepidermal water loss.

**Main ingredients:** aloe vera, glycerine, panthenol, honey, hyaluronic acid, sphingolipid, phospholipid, lecithin

### MARINALGA FITOMASK

**SIZES:** 250 ml • SO20905, 50 ml • SO10905

The Phytomask has cell function-activating and water-binding substances for dehydrated, ageing, and wrinkled skin. Polysaccharide from seaweed protects skin cells as a natural antioxidant from oxidative damage and slows down the ageing processes. The organic iodine compound helps microcirculation, while its film-forming components provide a moisturizing, wrinkle-smoothing effect.

**Main ingredients:** fucus vesiculosus (bladder wrack), allantoin, panthenol, fructose, glycine
